

HUMPHREYS | SoCAL DINING & MUSIC

To our wonderful patrons:

As a family-owned business of over 40 years, we take your and your family's health seriously. Through this brief period of uncertainty, we want you to feel certain you're safe dining at Humphreys Restaurant.

According to experts, the risk of coronavirus (COVID-19) for the general San Diego County population remains low. Yet, we're taking measures above and beyond those outlined by the California Department of Public Health, practicing advanced sanitation, and we continue to stay apprised of changes in protocol.

Beginning this Sunday, March 15th, our weekend brunch buffet will be on hiatus, to ensure we have control over each plate of food our guests are served. We'll provide regular updates on our Instagram and Facebook pages. In the meantime, we will be open for brunch! We're offering beautifully plated brunch items by our wonderful culinary team.

Thank you so much for dining with us.

With Great Fondness,

The Family of Humphreys
